Overview of the SUSTOUR Laos Project

Support Micro, Small, Medium Enterprises to Access Sustainable Market in the Tourism Supply Chain.

The SUSTOUR Laos Project, an initiative funded by the European Union and implemented by Plan International Laos, represents a pioneering effort in elevating sustainable tourism practices in Laos. This project is a part of a broader vision to integrate sustainability at the heart of the tourism sector, ensuring long-term benefits for both the environment and local communities.

Project Objective in Brief:

- 1 Implement Travelife and Lasting Laos certificate in Laos tourism to boost sustainability and community benefits.
- 2 Promote sustainable tourism among Laos MSMEs, increasing consumer awareness and incentivizing sustainable supply chain practices.
- 3 Advocate for sustainable tourism business needs in Lao and regional forums.

Project's Achievements and Support to Five Companies:

A highlight of the project's success is the support provided to five distinguished tourism companies, which have become exemplary models of sustainable tourism practices. These companies have not only achieved Travelife certification under the project's guidance but also represent the innovative spirit and commitment to sustainability that the SUSTOUR Laos Project champions.

These five companies are now set to showcase their achievements and sustainable practices at the prestigious ITB 2024 event, demonstrating the real-world impact and potential of the SUSTOUR Laos Project on a global stage.

As the project moves towards its completion in July 2024, it proudly reflects on the significant progress made in promoting sustainable tourism and the specific support provided to these leading companies, paving the way for a more sustainable future in the Laotian tourism industry.

Conclusion and Contact Information

Reinforcing Sustainable Tourism in Laos

The collective efforts of the companies showcased in this portfolio represent a significant stride towards sustainable tourism in Laos. Each company, with its unique approach and commitment, contributes to a larger vision of an environmentally conscious, culturally respectful, and economically beneficial tourism industry. Their achievements under the SUSTOUR Laos Project exemplify how sustainable practices can not only coexist with but also enhance the tourism experience. These companies stand as beacons of innovation and responsibility, leading the way in transforming Laos into a premier sustainable tourism destination.

As we move forward, the lessons learned and successes achieved through these collaborations will continue to inspire and guide future endeavors in sustainable tourism, both in Laos and globally.
